

KYOKO

This product must be installed in accordance to the national electrical code and all applicable local codes. Failure to do so may result in serious injuries. Proper grounding is required for safety. Do not install if product appears to be damaged.

Included Hardware:

- A: Mirror
- B: Frame
- C: Wall Mounting Bracket
- D: Driver

Required Tools and Hardware:

- Drill
- Stud Finder
- Level
- Screws
- Metal Anchors (If Necessary)

Instructions:

- 1 Turn power off.
- 2 Place *Frame* (B) at the desired height and mark studs' location on it. Plan for at least two (2) screws in each corner, one on each side of the seam.
- 3 Drill holes on the marks while being careful of not damaging the pre-installed light source.
- 4 Securely screw *Frame* (B) to the wall, using anchors if necessary.
- 5 Using the pre-installed bracket on the back of *Mirror*(A) as a guide, measure, level and mark location of *Wall Mounting Bracket* (C) so that *Mirror* (A) is centered on its frame.
- 6 Securely screw *Wall Mounting Bracket* (C), making sure it's positioned so that the one at the back of *Mirror*(A) can rest on it.
- 7 Install *Driver* (D) inside the *Frame* (A) and secure it to the wall.
- 8 Connect *Driver* (D) to main power lines.
- 9 Turn power on.
- 10 Carefully hang *Mirror* (A) on the *Wall Mounting Bracket* (C).

Do not overload power unit.
