- Screws
- Anchors (If Necessary)

VENGA SUSPENDED SERIES

This product must be installed in accordance to the national electrical code and all applicable local codes. Failure to do so may result in serious injuries. Proper grounding is required for safety.

Do not install if product appears to be damaged.

Instructions:

Turn power off.

- Install *Driver* in desired location and bring power cord to the location of *Luminaire* (A). If necessary, cut *Driver's* DC Quick Connect cable to do so.
- Measure and mark location of *Canopy* (B). It should be placed where the main power lines are as well as aligned with the *Luminaire* (A) power cord.
- Prepare access to main power lines as needed.
- While aligned with Pre-Installed Suspension Cable Locks (C), mark placement of Suspension Cable Anchors (D).
- Unscrew Supsension Cables (E) from Suspension Cable Anchors (D) and screw Anchors (D) securely to surface before screwing Suspension Cables (E) back in place.
- 7 Insert Suspension Cables (E) in Pre-Installed Suspension Cable Locks (C) by pressing the pin down.
- Adjust the length of Suspension Cables (E) until the desired effect is achieved, then cut excess Suspension Cables (D) if desired.
- Insert power cord through Pass-Through Wire (F), Canopy (B), Serrated Lock Washer (H), Nut (I), Threaded Tube (J) and Crossbar (K) in this order.
- Adjust power cord length between *Canopy* (B) and *Luminaire* (A). If needed, cut and strip power cord.
- Using Wire Connectors, connect the stripped cables to Driver.
- Screw Threaded Tube (J) into Crossbar (K).
- Screw Pass-Through Set Screw (G) into Pass-Through Wire (F). Do **NOT** damage power cord.

TEL. 514 286 0227

Turn power on.

Do **not** overload power unit if many *Luminaires* are connected to the same one.
