

Alina

Configurable Architectural Linear System

LUMEN
WARM

The **Alina Master profile** is a customizable architectural solution that can be adapted to fit almost any space.

It offers two integrated channels driven at 24V along with the possibility of controlling its fixtures individually or as a group using the **LUWA ecosystem**.

The **Alina family** comprises an ever-growing number of fixtures of different design, making it easy to change the look of the room the **Alina** is installed in.

Alinda

Surface to suspended

The **high flexibility** of the sytem lets you combine multiple installation methods to reach the unique design you are looking for.

Easy system configuration and reconfiguration makes it **perfect** for evolving spaces.

LUMEN
WARM

Alinda

Suspended

Create shapes that enhance the architectural look of the space.

Exploit the wide range of available fixtures and control them on two independent zones to maximize the usage of this complex yet simple linear system.

LUMEN
WARM

Alinda

Recessed

Its **versatility** allows it to be integrated in any type of project, commercial, residential, hospitality.

The heavy duty "snap in" module ensure that you can move the fixtures frequently within the channel
